Overview

Picture yourself in lush tropical gardens with a vibrant view of blue Caribbean Sea, white sand beach and verdant rain forest mountains. The cool sea breeze is caressing your skin and the waves are lapping on the beach below in their steady yet powerful rhythm. The sun is warming your body and the air is filled with the songs of birds in the surrounding trees, hanging their delicious fruits seductively over the balconies- Welcome to Maca Bana.

'Maca' is the ancient Arawak word for tree, 'bana' means place of dwelling... Maca Bana is a blend of the ultimate privacy and individuality of a villa and the personal services of a tiny boutique hotel. The intimate collection of seven solar powered 'banas' is perched on the edge of the cliff above the uniquely tropical and cosmopolitan Aquarium Restaurant and boasts gorgeous ocean views from private massaging hot tubs on every sun deck. Each of the spacious 2-bedroom and 1-bedroom villas is named after an indigenous fruit tree and artistically designed by resident fine artist and co-owner Rebecca Thompson.

Maca Bana is for those who are looking for something different, not another hotel room, but an individual, unique 'getaway' to just be and to enjoy life.
